SPA & STUDIO DESIGNED FOR WOMEN

SIGNATURE THERAPY

This signature ritual begins with a floral milk bath soak, infused with epsom salts and butterfly pea flowers, to relax muscles and restore vitality. An hour-long massage of your choice follows, melting away tension and rebalancing the body. The experience continues with a gentle scrub and a nourishing facial that revives natural radiance, before concluding with the restorative warmth of steam or sauna. Crafted as the hallmark of our therapies, this journey is designed to renew you completely.
